The Norfolk Phenoms Shut out
the All Americans, of Baltimore.

THE DIAMOND ELSEWHERE.

The Norfolk Team Yesterday Confirmed Its
Claim to the Title, "Phenoms" by Play-
ing Ball in National League Style—The
Scores Made in Games at Other Points—
On the Turf at Aqueduct.

The Norfolk players again backed up their right to the title "Phenoms" yesterday afternoon by shutting out the All Americans, of Baltimore, on the local grounds. The latter is a semi-professional team and Manager Smith had been given the tip that the "Phenoms" would have to play hard ball to even up with their opponents. But as the game progressed it was made clear that the Norfolk players were on their mettle and could not be overcome by the Baltimoreans. But two men of the latter team reached third base and only four got as far as second. In the sixth inning it looked as if the All Americans might score three runs, and it was only the good playing of the Norfolk infield and battery that kept this from happening. There was a man on first and second base when a hit was made, which enabled the batter to reach second base, advancing the man at first to third and putting the runner originally on second within an inch of the home plate. Sullivan's quick throw to Catcher Nelson put out the would-be home-runner. The Baltimoreans still had two men to bat, and right here the Norfolk team showed its efficiency by not allowing either of the base-runners to make an advance. The Norfolk team made its five runs in the first and third innings, two in the first and three in the third. Sullivan and John Smith carried off the fielding honors on the Norfolk side. The former stopped everything that came his way at third base, whether it was a smoking liner or ground ball. Smith made two of his usual pretty catches in left field. McCloud showed up in excellent form in the box, doing better work than Tierney and greatly pleasing the fans.

The visitors did some good work in the field and it is said that Manager Smith will make an effort to sign one of the fielders, whose work yesterday he especially liked.

The All Americans play the Portsmouth team to-day on the new grounds near Scottsville. This is the first match game this season for "Brady's Band of Boers," and by reason of these players being pitted against a team which has matched its strength against the Norfolk team, the rosters on both sides of the river will watch the result with interest.

After playing Portsmouth the All Americans will return to Norfolk and again cross bats with the "Phenoms."

VIRGINIA LOST.

(Special to the Virginian-Pilot.)

University of Va., April 23.—Virginia lost in a beautiful up hill game to-day. Pennsylvania started well but were held down after the third inning. Pinkerton relieved Summersgill in this inning and pitched good ball. His home run hit, and Summy's homer

NATIONAL LEAGUE SCORE.

Philadelphia, Pa., April 23.—Philadelphia was unable to solve Pitcher Willis' curves, resulting in the team's first defeat this season. Orin, for the Phillies on the contrary, was comparatively easy for Boston. The fielding of both clubs might have been considerably better. Score:

	R.H.E.

the same manner as Adelbert Hay guards the interests of the British at Pretoria.

A proclamation has been issued prohibiting the working of the mines on Sundays, and inflicting punishment on managers paying over (pounds) one a month to natives.

From Ladysmith to-day comes a dispatch saying all is quiet, and that the Boers' guns are silent.

There is nothing further from Bloemfontein to indicate the progress of the preparations for the main advance.

A Cape Town Government contractor named Bam has been arrested for harboring three escaped Boer prisoners, dressed as clergymen. The prisoners were sent back to Simontown, whence they escaped.

MILITARY BALLOON SERVICE.

St. Petersburg, April 23.—The papers announce the departure for South Africa of a body of aeronauts to organize a military balloon service for the Transvaal. They took the necessary balloons and accessories with them.

BRITISH CASUALTY REPORT.

London, April 23.—The War Office late this evening issued the following dispatch from Lord Roberts, dated Bloemfontein, Monday, April 23, 2:50 P. M.

"Yesterday I dispatched the Eleventh Division, under General Pole-Carew, and two brigades of cavalry, under General French, from this point to assist General Rundle. The force reached Barrieffontein without opposition.

"Casualties reported: Welsh Regiment, private killed, Captain Prothero mortally wounded and seven men; Yorkshires, eight wounded; Eighth Hussars, one killed and one wounded; Royal Artillery, two wounded. Seventh Dragoons, Lieutenant Jenkins and ten missing.

"Captain Rotton, Royal Artillery, broke an arm by a fall.

"General Pole-Carew's mounted infantry seized Lear Kop, a high hill a few miles north of their last night's position. The enemy evacuated hurriedly, leaving some rifles and ammunition."

PRISONERS IDENTIFIED.

Elandsloogte, April 23.—Boer messengers who arrived in camp this morning were identified as Reus, a solicitor from Boskburg, and Edwards, notorious for his anti-English speech after the Jameson raid.

They brought a letter from the Boer general to the commanding officer here. They were much surprised at the ordinary appearance of the camp. Reus declared they were only getting used to the war now, and that the soldiers were only beginning to fight. The messengers were finally escorted to the outpost.

BOERS DRIVEN OFF.

Wakkerstroom, Sunday, April 22.—After yesterday's shelling it was expected that the Boers would open again, but Colonel Irabazon, with the yeomanry, made a thorough scout to the left. The Boers advanced and endeavored to turn the British right, but the movement was detected by the yeomanry and mounted infantry, and the guns opened fire and drove them off, greatly extending the position. None of the Boer guns were in action. There were no British casualties. Many of the Boers are moving southward.

OUR RICHMOND
NEWS BUDGET.

Many Counties Declare for Revision of the Constitution.

MAY SUCCEED MR. ELLYSON

Hon. Joseph T. Lawless Will Be Advocated at the State Democratic Convention for Chairmanship of State Committee—

Rumors of Wedding in High Life—Miss Cissy Loftus' Bath—The Legislature Gave to One Company What it Denied to Another—Taxable Values.

(Special to The Virginian-Pilot.)

Richmond, Va., April 23.—Numerous county conventions were held to-day to elect delegates to Norfolk.

Fluvanna indorsed W. J. Bryan, and declared in favor of a Constitutional Convention, provided its work is to be submitted to the people.

Orange county took similar action.

Halifax indorses Bryan, the making of the convention a party measure, and instructed the delegates to vote and work for Senator W. P. Barksdale as elector-at-large. The meeting was very large, and determined on a revision of the constitution.

Brunswick Democrats reorganized and elected R. Turnbull county chairman, in place of Thomas B. Price. Resolutions were adopted declaring for a Constitutional Convention as a party measure.

Richmond county indorsed Hon. W. A. Jones after vigorous opposition, and declared for a Constitutional Convention.

Nelson county declared for the convention as a party measure.

CHAIRMAN ELLYSON'S SUCCESSOR.

It now seems to be a settled fact that Hon. Joseph T. Lawless, Secretary of the attitude of opposing Mr. Ellyson, Taylor Ellyson as chairman of the State Democratic Committee. While the former does not desire to be put in the attitude of opposing Mr. Ellyson, who has been at the helm so long, yet his friends are determined that he shall be elected. A gentleman who is very close to Mr. Lawless, said to-day:

"You can state without reservation that the name of Joe Lawless will be presented at Norfolk, and he will be elected to the chairmanship. He is the man we want. He has no active enemies, is a good organizer, and will harmonize the party for the coming Presidential campaign. I have nothing to say to the disparagement of Mr. Ellyson, but it would be a terrible blunder to leave him in his present position. I hope that he is a good enough Democrat to withdraw of his own volition."

RUMORS OF WEDDINGS.

A Baltimore paper of this morning prints the statement that Mrs. James Brown Potter has secured a divorce from her husband and will soon marry General Lord Kitchener. It states further that Mr. James Brown Potter and Miss Mary Handy, Virginia's and Richmond's celebrated beauty, are shortly to wed.

Miss Handy, when seen this afternoon, denied that there is any truth whatever in the report. It has gained great credence here on account of the fact that Mr. Potter was here on a visit to Miss Handy a few days ago.

MISS LOFTUS' BATH.

Miss Cissy Loftus, the vaudeville actress whose involuntary bath at Old Point Friday created so much talk, spent Monday in Richmond, leaving at night for Asheville, N. C. The actress said that her falling into the water was altogether accidental; that there was no reason for her to commit suicide, for she could have done so just as well in New York, and not have been put to the trouble of making a trip to Old Point.

PARALLEL CASE.

The Richmond News this afternoon prints the following:

When the telephone bill was before the Legislature last winter there was a great cry against a telephone company going into a city without a city grant, and the delegation from Norfolk was loud in denouncing such a proposition.

It has just transpired, however, that an act was passed which gives this identical right to a Norfolk company.

The West Norfolk Telephone Company was incorporated in an act approved March 7, 1900.

The provision is as follows:

"It may construct and acquire by lease, purchase or otherwise, and maintain and operate telephone or telegraph lines, or either, with all necessary fixtures and appliances in, under, and along the streets, alley, highways, public works, and parks, and through, across or under the waters in Norfolk county, subject to the following conditions ONLY—namely: THAT THE ORDINARY USE OF SUCH STREETS, HIGHWAYS, WORKS AND WATERS BE NOT THEREBY OBSTRUCTED."

This is construed by able lawyers to give the company absolute right to go where it pleases, as long as the streets are not obstructed, and is exactly what the Norfolk delegation fought against in the general telephone bill.

TAXABLE VALUES.

The first return of the new land assessment reached State Auditor Mayre this morning from Mecklenburg county.

Every five years the lands of the State are reassessed, although the new buildings are added annually by the Commissioner of Revenue.

It is expected that the returns this year will show a considerable advance in the taxable values of Virginia lands, and old Mecklenburg set the pace with an advance of about \$30,000.

THE QUAY CASE IN THE SENATE.

embarking in any more enterprises than it is now in."

Mr. Norton, of South Carolina, who followed Mr. Loud, took advantage of the latitude allowed in general debate to deliver an hour's speech on the subject of the conditions in the South. He replied to some of the strictures on the educational system in the South, showing that since reconstruction the South had proportionately spent more for education than some of the States of the North. He described the wonderful strides of the South in material wealth, and predicted a glorious future for the Southland.

EXORBITANT COMPENSATION.

Mr. Bell, of Colorado, attacked the exorbitant compensation paid railroads for carrying the mails, which averaged eight cents per pound. The express rate from Boston to Chicago, he said, was less than one cent per pound. Why should the Government pay more? Since 1878 railroad rates had decreased 35 per cent and passenger rates 17½ per cent, but the rate for carrying the mails had remained unchanged. A reduction of 25 per cent in railroad transportation, he said, would wipe out the postal conflict and create a new surplus.

Mr. Bromwell, of Ohio, opposed the extension of rural free delivery service, the pneumatic tube service, and the special railroad mail facilities, but said he would not be surprised if a combine of the several interests did not prevail.

Mr. Gaines, of Tennessee, discussed questions relating to the solution of the trust problem, and Mr. Sibley, of Pennsylvania, concluded the debate for the day. We were engaged to-day, he said in the commercial conquest of the world, and anything which expedited communication, whether it was rural free delivery, fast mail service subsidies or pneumatic tube service would command his support.

At 5 o'clock the House adjourned.

Artificial Plates

Making perfect fitting artificial plates provides work for both the artist and artisan. Some dentists tell you that the work is nearly or wholly mechanical. Their work will probably be as mechanical as they tell you—and as far short of perfect results. Perfect fit, thorough comfort, durable efficiency and natural appearance are some of the details in which the artist shows his hand. It's just the making of plates that is mechanical. Our plates are artistic—to perfection.
